DENTAPURE DP365B

WATER PURIFICATION SYSTEM

DentaPure's DP365B provides worry-free water purification for an entire year, without the need for time consuming protocols.

"A product that makes my life easier for a change," is how 1 New York dentist, in practice for 21 years, described the DentaPure DP365B water purification system. This same evaluator went on to report that he would definitely purchase the system and recommend it to his colleagues.

Designed to take the guesswork out of providing clean, safe dental water, the DentaPure DP365B meets all known microbiological water standards and recommendations without the need for complicated protocols.

The 10 dentists and 1 dental assistant who participated in this *Dental Product Shopper* evaluation reviewed such features as ease of installation, time-savings, and effectiveness.

Ease of Installation

Manufacturer Description: The DP365B is designed for exceptional, worry-free ease of use, and is easily self-installed within a only few minutes.

Evaluator Feedback: Described by 90% of the evaluators as very important or important when selecting a water purification system, ease of installation was rated as excellent by 8 evaluators and as very good by the remaining 3. "Installation is so easy and you can forget about it for a year. It can't get any easier!" said an evaluator who rated all features as excellent. All 11 evaluators rated overall ease of use as excellent.

Time-Savings

Manufacturer Description: The DP365B eliminates the need to mix tablets or chemicals, and to carry out daily, weekly, or monthly protocols. Use of the system requires no shocking, monitoring/testing, and no distilled water.

Evaluator Feedback: With comments such as, "install and you're done...no daily or weekly stuff to do," and, "it saves time, money, and lugging water jugs," all 11 evaluators rated time-savings with the DP365B as excellent. "We

No ongoing procedures.
Put it in once and it's
good for a year.

don't have to go shopping for distilled water or use chemicals in the system," said a Vermont dentist in practice for 36 years, who called the system much better than similar products. When asked what he liked most about the system, a dentist who rated all features as excellent said, "change the cartridge and forget it for a whole year!" Responding to the same question, another evaluator said, "huge time savings, save on distilled water." This same dentist reported that he would definitely purchase the system and recommend it to his colleagues.

Effectiveness

Manufacturer Description: When used according to labeling, the DentaPure DP365B meets all known microbiological water standards and recommendations. The system does not leave harmful chemicals in wastewater, unlike other treatment systems. Iodine test strips are also available to test for the presence of iodine ensuring effectiveness and peace of mind for the clinician.

Evaluator Feedback: Nine of the 10 evaluators who responded when asked to rate the system's effectiveness rated it as excellent. "It's reliable and easy to use, and delivers what they said it would," noted a dentist who gave the system an overall rating of excellent. When asked what they'd like to see improved, 1 dentist noted that, "the only drawback is lack of assurance that it is working, especially as the year winds down." A few other evaluators commented on the taste of the treated water, including 1 dentist who remarked that, "patients have commented that the water tastes

funny." Ease of disposal with no hazardous waste issues was rated as excellent by all 11 evaluators.

Overall Satisfaction

Ninety one percent of the evaluators rated their overall satisfaction with the DentaPure DP365B as excellent, and 80% described it as much better than similar products. When asked what he liked most about the system, 1 evaluator said, "no ongoing procedures. Put it in once and it's good for a year," and another

said, "everything." Ten evaluators said they would definitely purchase the DP365B and 9 said they would definitely recommend it to their colleagues.
